

SIMPLIFYING CRITICAL DATA CAPTURE

i-STAT System STATNotes™

- Streamline the clinical documentation process
- Increase efficiency and help reduce errors
- Seamlessly integrate with electronic medical record (EMR) systems

A highly customizable solution

The *i-STAT* handheld can prompt for clinical data including respiratory parameters and critical notifications to allow a more complete picture of the patient's condition:

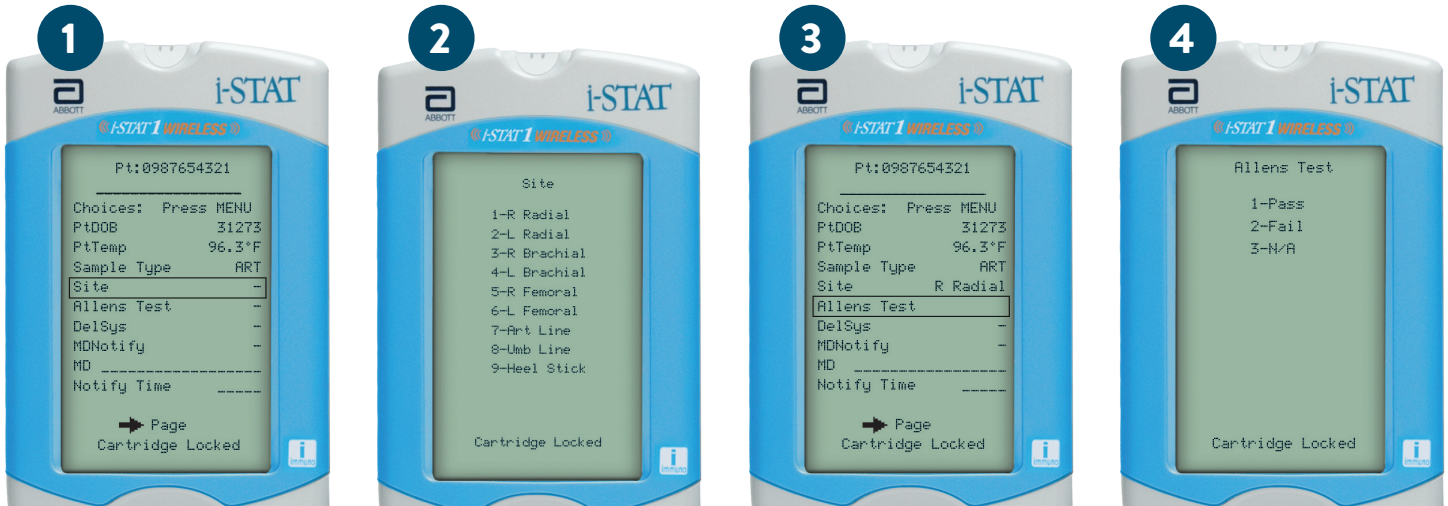

- Draw site (Left Radial)
- Second patient ID
- Allen's Test result (Pass, Fail)
- Physician notification (Yes, See Chart)
- Patient location or condition
- Delivery system mode (Adult Vent, CPAP)

For *in vitro* diagnostic use only.

Capture notes directly on the *i-STAT* handheld; no paper, no pen, no problem.

Sample Respiratory Work low

Sample Documentation Workflow

STATNotes Data Can Be Edited

- After entry prior to performing another test
- Before printing or transmitting results
- Before powering off the *i-STAT 1* handheld

Expert consultation

Our Implementation Team will:

- Work with you to assess your documentation needs and assist you in designing a simple yet thorough STATNotes documentation solution.
- Coordinate with your data management vendor to ensure a smooth “Go Live” with STATNotes.
