# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

- Trade name: i-STAT Control Levels 1, 2, and 3; i-STAT Calibration Verification Levels 1 through 5, and CHEM8+ Calibration Verification Level 1B

· Article number:

06F12-01

06F13-01

06F14-01

06F15-01

06F12-14

- 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available.
  - · Application of the substance / the preparation: For In Vitro Diagnostic Use
- 1.3 Details of the supplier of the safety data sheet
  - · Supplier:

Abbott GmbH & Co.KG (Point of Care Division)

Max-Planck-Ring 2

65205 Wiesbaden, Germany

Tel.: (+49)-6122-58-1389

MSDS-Support@Abbott.com

#### 1.4 Emergency telephone number

Tel.: (+49)-6122-58-1389

Contact the CHEMTREC® Emergency Call Center for assistance with transportation or hazardous materials emergencies (24 hours/day, 7 days/week). Refer to Abbott customer number 675922.

- Telephone (800) 424-9300 (toll-free) if you are calling from within the United States, Canada, Puerto Rico and the Virgin Islands.
- Telephone +1 (703) 527-3887, the international and maritime number (collect calls accepted), if you are calling from outside the United States or from a ship at sea. (+49)-6122-58-0 (English only)

#### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

· Classification according to Regulation (EC) No 1272/2008:

This product has been evaluated per the classification criteria in Regulation (EC) No 1272/2008 (CLP) and the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). This product does not meet the criteria for classification in accordance with either CLP or GHS.

#### 2.2 Label elements

· Labelling according to Regulation (EC) No 1272/2008: None

· Hazard pictograms: None

· Signal word: None

· Hazard statements: None

(Continued on page 2)

according to 1907/2006/EC, Article 31

Release date 29.10.2018

Version number 5

Last alteration on 29.10.2018

# Trade name: i-STAT Control Levels 1, 2, and 3; i-STAT Calibration Verification Levels 1 through 5, and CHEM8+ Calibration Verification Level 1B

(Continued from page 1)

#### · Routes of Exposure:

- Skin: No adverse effects expected when used as directed.
- Eye: No adverse effects expected when used as directed.
- Inhalation: No adverse effects expected when used as directed.
- Ingestion: No adverse effects expected when used as directed.

#### 2.3 Other hazards

#### · Results of PBT and vPvB assessment:

PBT: Not applicablevPvB: Not applicable

### **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

- · Dangerous components according to EC criteria: None
- · Additional information:

For the complete text of Hazard (H) codes displayed in this section, refer to Section 16.

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

#### · After inhalation:

Remove from source of exposure. If irritation or signs of toxicity occur, seek medical attention.

#### · After skin contact:

Take off any clothing that the product touched. Rinse skin with running water for 15 to 20 minutes. Seek medical attention if irritation or signs of toxicity occur.

#### · After eye contact:

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention. Wash hands after handling.

- · After swallowing: Rinse mouth with water. If irritation or signs of toxicity occur, seek medical attention.
- · 4.2 Most important symptoms and effects, both acute and delayed: None expected
- 4.3 Indication of any immediate medical attention and special treatment needed:
   No additional relevant information available.

## **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

#### · Suitable extinguishing agents:

Dry chemical, carbon dioxide (CO2), water spray or regular foam.

- Caution: CO2 will displace air in confined spaces and may cause an oxygen-deficient atmosphere.
- For larger fires: There are no unique chemical or reactivity hazards that would impact firefighting decisions related to this product. Use firefighting measures that suit the environment.

Release date 29.10.2018

Version number 5

Last alteration on 29 10 2018

# Trade name: i-STAT Control Levels 1, 2, and 3; i-STAT Calibration Verification Levels 1 through 5, and CHEM8+ Calibration Verification Level 1B

(Continued from page 2)

#### 5.2 Special hazards arising from the substance or mixture

There are no unique chemical or reactivity hazards that would impact firefighting decisions due to the chemicals in this product.

#### 5.3 Advice for firefighters

#### · Protective equipment:

For large fires, wear appropriate heat- and flame-resistant personal protective equipment and an approved positive-pressure, self-contained breathing apparatus.

### **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

Minimize exposure by using appropriate personal protective equipment as listed in Section 8. Stop leak if possible. Keep unprotected persons away.

#### 6.2 Environmental precautions

Prevent liquid and vapor from entering sewage system, storm drains, surface waters, and soil.

#### 6.3 Methods and material for containment and cleaning up

Blot up small volumes of spilled or spattered product with paper towels or similar materials.

- Contain larger spills by placing absorbants around the outside edges of the spill. Absorb with any material suitable for water-based liquids - e.g. paper towels, universal sorbents, sand, diatomite, sawdust, etc.

Clean the affected area. Suitable cleaners are:

- warm water and detergent or similar cleansing agent

Dispose of spilled and contaminated material in accordance with Federal, State, and Local regulations. See Section 13 for information that may impact disposal of materials contaminated with this product.

#### 6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

# **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling:

Avoid direct contact with material. If handled, wash thoroughly. Practice general safety precautions.

· Information about protection against explosions and fires: No special measures required.

#### 7.2 Conditions for safe storage, including any incompatibilities

- · Storage:
  - · Requirements to be met by storerooms and containers:

Store only in the original container.

Refer to the package insert or product label for additional information on storage conditions for product quality.

- · Information about storage in one common storage facility: Store in original packaging.
- · Further information about storage conditions: Protect from heat and direct sunlight.

(Continued from page 3)

· 7.3 Specific end use(s): No additional relevant information available.

### SECTION 8: Exposure controls/personal protection

#### 8.1 Control parameters

· Components with limit values that require monitoring at the workplace:

CAS: 12125-02-9 ammonium chloride (0.0003 %)

WEL (Great Britain) Short-term value: 20 mg/m<sup>3</sup>

Long-term value: 10 mg/m<sup>3</sup>

#### 8.2 Exposure controls

· Personal protective equipment:

#### General protective and hygienic measures:

Always maintain good housekeeping and follow general precautionary measures. Do not eat, drink or store food and beverages in areas where chemicals or specimens are used. Wash hands before breaks, after handling reagents and specimens, and at the end of the workshift.

#### **Breathing equipment:**

Normal use and storage of product - respiratory protection is not necessary if room is well ventilated.

Small-volume spills (e.g. small enough to clean up with a paper towel or small sorbent pad) - respiratory protection should not be necessary if room is well ventilated.

Other unusual conditions (e.g. volume spilled too big to clean up with materials in arm's reach) - Use appropriate air-purifying respirator if airborne chemical concentrations may exceed the exposure limit (if any) listed above.

Hazardous Materials Emergencies or Firefighting - use approved respiratory protection. Take precautions if chemical concentrations exceed the exposure limits (if any) listed above.

Wear impervious gloves if hand contact with the material is anticipated. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices.

#### · Material of gloves and breakthrough time of the glove material:

The glove material must be suitable for use in a microbiological laboratory and have a measured breakthrough time of at least 30 minutes, such as those with a Class 2 protection index per EN374 (or equivalent standard applicable in your region). NOTE: This recommendation applies only to the product stated in this Safety Data Sheet. When dissolving in or mixing with other substances, contact the supplier of approved gloves.

#### · Eve protection:

Wear safety glasses or other protective eyewear. If splash potential exists, wear full face shield or goggles.

#### Body protection:

Normal use: protect personal clothing from spatters and small spills. Wear a laboratory coat (or other protective clothing required by your institution). Larger spills (e.g. that can saturate cloth): wear appropriate water-repellant covering over clothing.

## **SECTION 9: Physical and chemical properties**

· General Information

· Appearance:

· Form: Solution · Colour: Clear

Odour: OdourlessOdour threshold: Not determined

• **pH-value at 20 ℃:** 6.5-8

· Change in condition:

Melting point/freezing point:
 Initial boiling point and boiling range:
 Not determined

Flash point: Not applicableInflammability (solid, gaseous): Not applicable

• Auto igniting Product is not self-igniting.

• **Explosive properties:** Product does not present an explosion hazard.

· Explosion limits

· Lower: Not determined
· Upper: Not determined

Density
 Relative density:
 Evaporation rate:
 Not determined
 Not determined

· Solubility in / Miscibility with

· Water: Fully miscible

· Viscosity:

· dynamic: Not determined

Water: 97.6 % Solids content: 0.0 %

• 9.2 Other information No further relevant information available.

# **SECTION 10: Stability and reactivity**

- 10.1 Reactivity No further relevant information available.
- 10.2 Chemical stability:
  - Thermal decomposition / conditions to be avoided:
     No decomposition if used and stored according to specifications.
- · 10.3 Possibility of hazardous reactions: No dangerous reactions known.
- 10.4 Conditions to avoid: No further relevant information available.
- 10.5 Incompatible materials: No further relevant information available.

· 10.6 Hazardous decomposition products: No dangerous decomposition products known.

## **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

- · Acute toxicity Based on available data, the classification criteria are not met.
  - LD/LC50 values that are relevant for classification:
    - · Ingredients (100% pure substance/s): Not applicable.
  - · Primary irritant effect:
    - · Skin corrosion/irritation Based on available data, the classification criteria are not met.
    - · Serious eye damage/irritation Based on available data, the classification criteria are not met.
  - · Sensitisation:

Sensitization is possible with prolonged exposure, based on the reported properties of methylisothiazolones.

- · Additional toxicological information: None
- · Target organs/systems: Unknown
  - · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
    - · Germ cell mutagenicity Based on available data, the classification criteria are not met.
    - · Carcinogenicity Based on available data, the classification criteria are not met.
    - · Reproductive toxicity Based on available data, the classification criteria are not met.
  - STOT-single exposure Based on available data, the classification criteria are not met.
  - STOT-repeated exposure Based on available data, the classification criteria are not met.
  - · Aspiration hazard Based on available data, the classification criteria are not met.

# **SECTION 12: Ecological information**

- 12.1 Toxicity
  - · Aquatic toxicity: No further relevant information available.
- · 12.2 Persistence and degradability: No further relevant information available.
- 12.3 Bioaccumulative potential: No further relevant information available.
- 12.4 Mobility in soil: No further relevant information available.
  - · Additional ecological information
    - · General notes: Generally not hazardous for water.

#### 12.5 Results of PBT and vPvB assessment

- · PBT: Not applicable
- · vPvB: Not applicable
- · 12.6 Other adverse effects: No further relevant information available.

# **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

There are no uniform EU regulations for the disposal of laboratory waste. In general, laboratory waste is under special supervision of the authorities.

(Continued on page 7)

according to 1907/2006/EC, Article 31

© Abbott Laboratories Release date 29 10 2018 Version number 5 Last alteration on 29 10 2018

# Trade name: i-STAT Control Levels 1, 2, and 3; i-STAT Calibration Verification Levels 1 through 5, and CHEM8+ Calibration Verification Level 1B

(Continued from page 6)

#### · Recommendation for disposal of unused product:

Dispose in accordance with national, state and local regulations.

#### · European waste catalogue:

Consult the responsible regulatory body for the assignment of disposal codes according to the European Waste Catalogue.

#### · The following waste disposal key numbers are possible:

18 01 07: chemicals other than those mentioned in 18 01 06

#### Uncleaned packagings

For disposal of contaminated packaging, refer to applicable local regulations and institutional policies.

#### Recommendation for disposal of packaging:

Non-contaminated packaging may be used for recycling. Refer to applicable local regulations and institutional policies.

For disposal of contaminated packaging, refer to applicable local regulations and institutional policies.

· Recommended cleaning agent: Water with cleansing agents, if necessary.
